WHO WE ARE

At mobivIVE, we're all about giving — giving happiness, energy, health, hope, and restoring lives from the burdens of stress. But why stop there? We're committed to taking this spirit of giving to new heights, making it even more accessible to those who need it most.

We're offering businesses and like-minded people the opportunity to become a proud business owner of their own mobivIVE IV Drip lounge.

We're committed to ensuring your venture is not only successful but also fulfilling. How? By cutting costs, establishing efficient management systems, and researching the best compounded IV cocktails on the market. Whether you integrate our services into your existing practice or establish a standalone lounge, we've got your back.

WHY WE STARTED mobivIVE

mobivIVE started as a result of our first-hand experience dealing with stressful work environments.

We know how the hustle and bustle leads to lack of energy, hurried and unhealthy meals. It even puts a strain on our relationships.

When the global pandemic hit, it became even more apparent to pay attention to our health.

The big questions were: how can we boost immune systems, increase energy levels, relieve high stress levels, feel, and look young again, AND keep mentally sharp, quickly?

With mobivIVE's range of IV therapies, **the solution is simple, fast, and effective.**
