5-AMINO-1-MQ INFORMATION DOCUMENT

WHAT IS 5-AMINO-1-MQ, ANYWAY?

5-Amino-1-MQ is an innovative small-molecule peptide that selectively inhibits the enzyme NNMT (nicotinamide N-methyltransferase), unlocking a powerful metabolic shift toward enhanced fat burning, improved cellular energy, and increased NAD⁺ availability. Delivered via convenient prefilled cartridge pens in 150mcg daily doses administered subcutaneously, each cartridge provides 4.5mg total (30 doses) for a complete month of therapy. By blocking NNMT, 5-Amino-1-MQ prevents the breakdown of NAD⁺ your body's master energy molecule while simultaneously activating genes that promote fat oxidation and metabolic health. It's ideal for stubborn weight loss (especially visceral abdominal fat), cholesterol management and metabolic syndrome, NAD⁺ optimization and cellular energy support, age-related metabolic decline, and enhancing fat loss during calorie-restricted diets or fasting protocols.

INTRODUCING 5-AMINO-1-MQ AT mobivive

Transform your metabolism at the cellular level with 5-Amino-1-MQ the cutting-edge peptide that optimizes fat burning and energy production! mobivive pairs this therapy with Weight Loss and Energy IVs to accelerate your metabolic transformation and help you achieve sustainable results.

THE SCIENCE

5-Amino-1-MQ works by inhibiting NNMT, an enzyme that breaks down NAD⁺ and slows metabolic rate—particularly elevated in obesity and metabolic disease. By blocking NNMT, 5-Amino-1-MQ preserves cellular NAD⁺ levels (boosting energy, DNA repair, and longevity pathways), upregulates genes involved in fatty acid oxidation and thermogenesis (fat burning), improves insulin sensitivity and glucose metabolism, and reduces visceral (deep abdominal) fat accumulation.

THE 5-AMINO-1-MQ PROCESS AT mobivive

1. Complete your medical questionnaire

Fill in the questionnaire. If you answer **"No" to all questions**, your **5-Amino-1-MQ order is placed**.

If you answer **"Yes" to any question**, a **once-off consultation (R500)** is required.

2. Order and delivery

Your 5-Amino-1-MQ arrives as a **prefilled cartridge pen** no vials, no mixing.

Contact Number: 061-509-6038

Email: info@mobivive.co.za

Web page: www.mobivive.co.za

Company Name: Mobivive PTY LTD

Comp Registration: 2021 /454217 / 07

VAT Number: 4340304361

Address: Shop 5A, 1st Floor, The Promenade, 87 Victoria Road, Camps Bay 8005

3. Daily injection routine

Self-administer once daily: remove cap, dial your prescribed dose (150mcg, typically 10 units), clean injection site, and inject subcutaneously at a 45-90° angle into your lower abdomen, front of thigh, or upper arm. Rotate sites daily.

KEY REMINDERS

- Inject once daily at a consistent time (morning is popular for metabolic activation)
- Can be administered with or without food—no special timing required
- Rotate between abdomen, thighs, and upper arms daily
- Works synergistically with calorie-controlled nutrition and regular exercise
- Store prefilled cartridge pen in refrigerator
- Most clients notice improved energy within 1-2 weeks; visible body composition changes emerge over 4-8 weeks
- **All mobivive peptides are prefilled cartridge pens—no vials, no needles**

HOW MUCH DOES IT COST

5-Amino-1-MQ Prefilled Cartridge Pen: R1,650

(30-dose supply (one month) + medical questionnaire review; R500 consultation fee applies if questionnaire triggers doctor review)

THE 5-AMINO-1-MQ METABOLIC TRANSFORMATION PROGRAM

This comprehensive 12-week program pairs your daily 5-Amino-1-MQ therapy with weekly Weight Loss IV treatments (L-carnitine, B-complex, amino acids, minerals) to create powerful metabolic synergy. Together, they amplify fat oxidation, accelerate calorie burning, support lean muscle preservation during weight loss, optimize gut health, and provide complete nutritional support for sustainable transformation.

LET'S TALK SIDE EFFECTS

5-Amino-1-MQ is generally well-tolerated with minimal side effects. Some clients may experience mild injection site redness that resolves quickly, transient increased energy (sometimes perceived as mild restlessness, usually positive), or temporary changes in appetite as metabolism adjusts.

BOOKING YOUR TREATMENT / ORDER YOUR PEPTIDE

Ready to unlock your metabolic potential? Whether you need more info or are ready to **order your peptide**:
